Pretrained Models for Prosody: Track Plan

Guan-Ting Lin, Leo Feng, Nigel Ward, Diego Aguirre, Jiatong Shi, Samuel Miller, Hung-Yi Lee

Goals

1. Augment SUPERB with prosody-intensive tasks

2. Characterize adequacy of existing pretrained models for these tasks

   via quantitative analysis + failure analysis)

3. Write a paper

Pretrained Models for Prosody: Track Plan

Guan-Ting Lin, Leo Feng, Nigel Ward, Diego Aguirre, Jiatong Shi, Samuel Miller, Hung-Yi Lee

Goals

Recent Goal:

Show that pretrained models enable better results on many prosody-intensive tasks.

via quantitative analysis + failure analysis)

3. Write a paper
